

## Orange day Tuesday 31st March

Orange combines the energy of red and the happiness of yellow.

Orange represents enthusiasm and creativity.

It also stands for success, encouragement and strength.

### Orange poem by Leonie Quinn Ash base

Orange is the second colour of the beautiful rainbow gliding across the blue sky.

Orange are the fragile, fluttering wings of the fantastic Red Admiral butterfly.

Orange is Nemo the clownfish who swims quickly to escape the dangerous sharks.

Orange are the healthy, crunchy carrots that help you see vividly in the dark.

Orange is the lovable, adorable Tigger- a large tiger on the loose.

Orange are the juicy sweet Satsumas filled with refreshing, cool juice.

Orange is the colour of Garfield the lazy cat, purring happily on his side.

Orange are the cheesy, soft wotsits which my cheeky sister eats outside.

Orange is orange but most importantly of all it is the colour of the Beckers muscular dystrophy charity which we are raising money for today.
